This exhibition presents three Contemporary Artists who created Still Life in wide spectrum of styles—from work, like old Masters, to Photorealism paintings, to Prints of Linocut and Collage. Viewers will enjoy pastels by Russian Artist Vladimir Verezhnikov in style of 16 Century Italian Masters, sometimes with Contemporary Architecture or, superb Oils by Ukrainian Master Vitaly Grigoriev in “Nostalgic Realism” style, or experience mixed media Prints by Argentinian Artist Maria A. Zanetta and feel her love for color, texture and different media.

While Still Life was born in ancient Egypt and lived through the centuries, it still continues to evolve and adjust in 21st Century and even expended beyond the boundaries of a frame.

Long Live Still Life!

Also: Ceramics by Late Cleveland Artist Boris Vitlin

Show continues through March 20, 2016
